# Air Quality Monitoring

In compliance with our Dust Control Plans, we monitor for two things: Dust & Naturally Occurring Asbestos (NOA)

- Dust reports are issued weekly. NOA reports are issued daily.
- BAAQMD inspects the site daily to confirm compliance.

If there is a detection above an “action level,” we investigate and mitigate the cause.

# September Exceedances

---

- *There were no exceedances for the month of September.*

# Ongoing Air Monitoring Updates

---

- With this report, BRIDGE will begin to provide a legend with our Dust and NOA reports for an easier understanding of our table.
- Hard copy reports will now be available thru Thu and Uzuri and on the Rebuild Potrero website
- We will continue to provide monthly updates at these meetings as part of our Construction Update segment

# Traffic Control Plan

---

Traffic Control Plan is currently under review by SFMTA

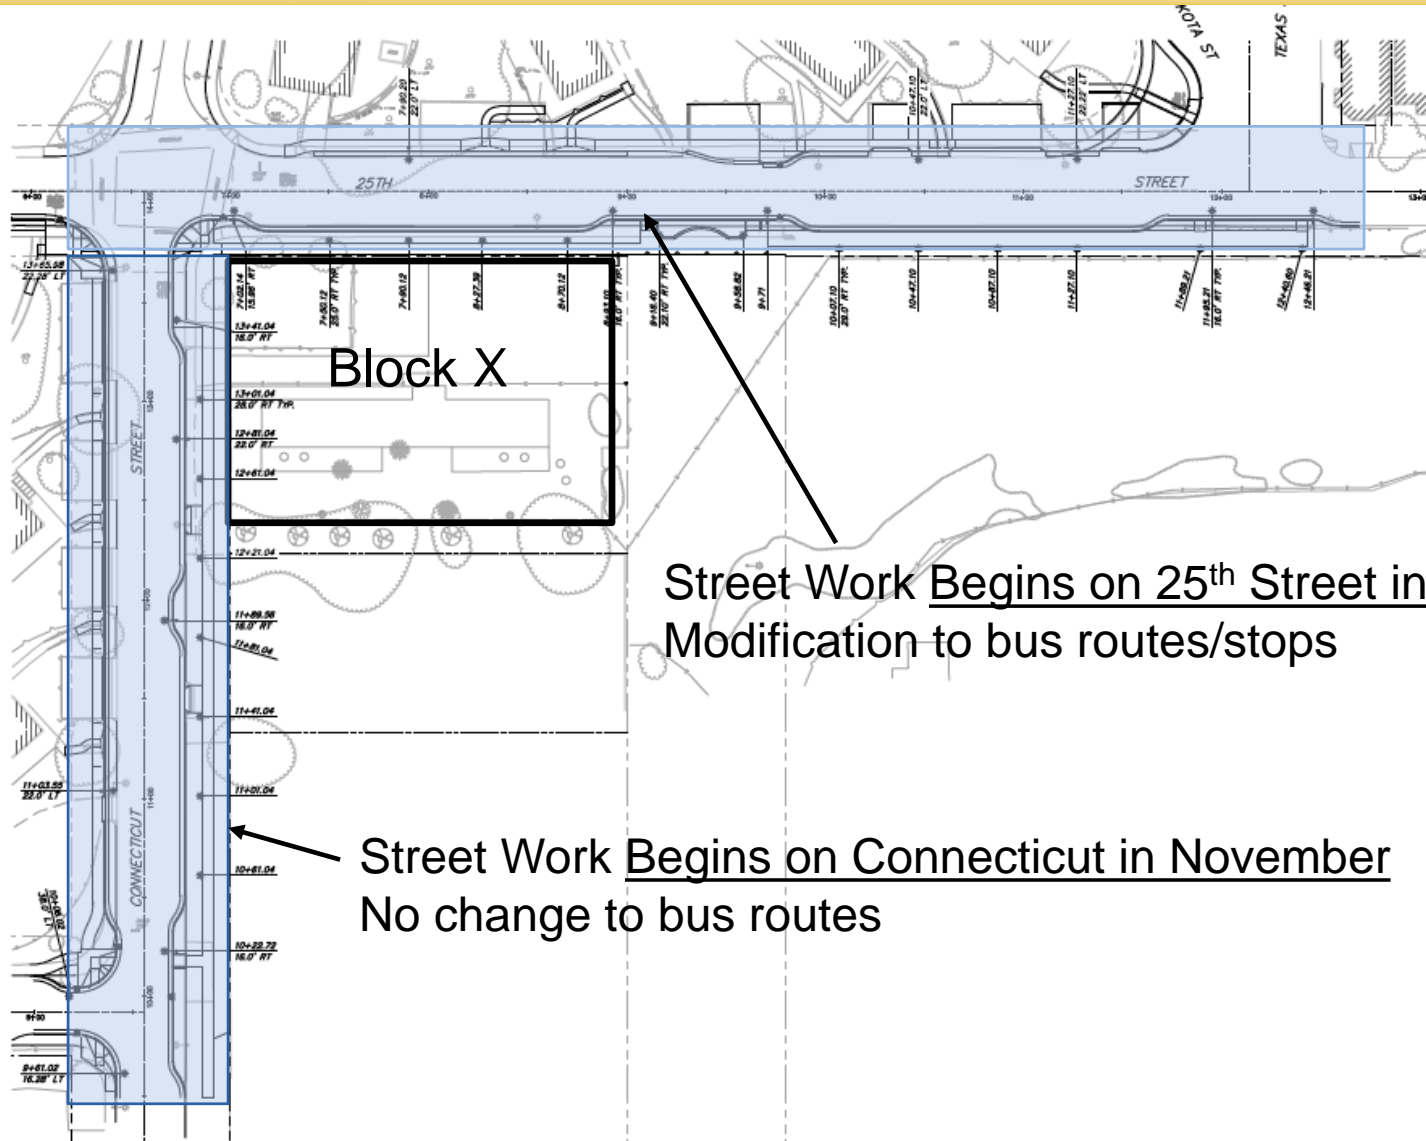

Once Plan is approved, we will report out details regarding street closures and bus re-routing

Notices will be distributed to residents ~2 weeks in advance describing changes

Notices will be left on vehicles that need to be moved
