

Rebuild Potrero

Community Meeting

February 18, 2021

Agenda

1. Black History & Lunar New Year Quiz
2. Community Announcements (e.g., COVID)
3. 26th Street Closure
4. Follow-up from January meeting
5. Construction Workforce Hiring
6. Q+A

Group Agreements

- Contribute to meeting goals
- Let everyone participate
- Listen to understand with an open mind & heart
- Tackle the problem, not the person
- One mic

Black History & Lunar New Year Quiz

COVID-19: Vaccine & Testing

Feb. 18, 2021

Myth vs. Fact

Myth: COVID-19 vaccines will give you COVID-19.

Fact: There is no live virus in the vaccine, so it can't infect you.

Myth: If you already had COVID-19, you do not need the vaccine.

Fact: Due to the severe health risks & possibility of re-infection, people may be advised to get a COVID-19 vaccine even if they have been sick with COVID-19 before.

Myth: Side effects of vaccine are really bad.

Fact: Most common side effects include fatigue, muscle pains, joint pains, fever, headaches, pain & redness at injection site. Symptoms are more common after 2nd dose.

Majority of side effects are mild. Serious side-effects, such as a strong allergic reaction are rare.

Myth: I won't need to wear a mask after I get the vaccine.

Fact: It may take time for everyone to get vaccinated. Until then & because we don't know if the vaccine can stop you from spreading the virus, it's important to continue wearing masks, avoiding crowds, social distancing, & washing your hands frequently.

Myth: The flu vaccine can help protect against COVID-19.

Fact: Getting a flu shot won't protect you against coronavirus. These are 2 different vaccinations.

But the flu shot can prevent you from getting the flu at the same time as COVID-19. This can keep you from getting a more severe illness.

Myth: The COVID-19 vaccine was developed as a way to control the general population either through microchip tracking or nano transducers in our brains.

Fact: There is no vaccine "microchip" & the vaccine won't track people or gather personal information into a database.

Myth: Natural immunity is healthier & more effective than vaccine immunity.

Fact: The protection someone gains from having an infection (called natural immunity) varies depending on the disease, & it varies from person to person. Since this virus is new, we don't know how long natural immunity might last.

Vaccines allow you to build immunity without the damaging effects that vaccine-preventable diseases can have. COVID-19 can cause serious health problems & even be life-threatening. These effects can be avoided by getting vaccinated.

Myth: The COVID-19 vaccine is not safe because it was rapidly developed & tested.

Fact: Pharmaceutical companies invested significant resources into quickly developing a vaccine for COVID-19 because of the world-wide impact of the pandemic. Both Pfizer & Moderna used similar processes when developing their vaccine.

Even though COVID-19 is new, these types of viruses (called coronaviruses) have been studied since the 1960s. This knowledge helped scientists understand the virus to make a vaccine.

**Find a COVID-19 vaccine for
yourself or a loved one**

<https://www.vaccinateca.com/>

**Safe & reliable COVID-19
vaccines are becoming
available to seniors &
healthcare workers in CA**

BAYVIEW CHILD HEALTH CENTER

We are vaccinating people who are:

- 65 years of age or older
- Healthcare workers
 - Community health workers
 - IHSS workers
- Long-term care residents

3450 3rd St,
Building 2
SF, CA 94124

If you do not meet this criteria,
please call to be added to the waitlist

1

CALL **415-890-2409** AND LEAVE A VOICEMAIL WITH YOUR:

- FIRST NAME
- LAST NAME
- DATE OF BIRTH
- PHONE NUMBER
- WHICH OF THE CATEGORIES ABOVE YOU FIT INTO

2

A NURSE WILL CALL YOU BACK WITHIN 48 HOURS
-YOU WILL BE SCHEDULED FOR AN APPOINTMENT

Beware: Vaccine Scams

- Nobody legitimate from the City, State, or Federal govt will call about the COVID19 vaccine & ask for your Social Security #, bank account, or credit card #.
- You can't pay for early access to the COVID19 vaccine. If you receive a call, text, email, or other message offering to sell early access, don't respond.
- You can't pay to put your name on a list for the COVID19 vaccine. If you receive a call, text, email, or other message offering to sell a spot on a list, don't respond.

Beware: Vaccine Scams (cont'd)

- **If you receive a call, text, or email offering the COVID19 vaccine & requesting your personal or financial info, don't respond.**
- **Learn how to tell the difference between a real contact tracer & a scammer. Legitimate tracers need health info, not money or personal financial info.**

Beware: Vaccine Scams (cont'd)

- **Ignore offers of vaccinations & miracle treatments or cures for sale. Scammers are selling products to treat or prevent #COVID19 without proof that they work.**
- **Nobody legitimate from the City, State, or Federal govt will call or text & ask you to pay for the COVID19 vaccine.**
