# Air Quality Monitoring

---

In compliance with our Dust Control Plans, we monitor for two things: Dust & Naturally Occurring Asbestos (NOA)

Dust reports are issued weekly. NOA reports are issued daily.

BAAQMD inspect the site daily to confirm compliance.

If there is a detection above an “action level,” we have to investigate and mitigate the cause.

# Ongoing Air Monitoring Updates

---

- We will provide monthly updates at CBG meetings as part of our Construction Update segment
- All reports will be uploaded to Rebuild Potrero website

# Street Closures/Bus Rerouting

---

Traffic Control Plan is currently under review by SFMTA

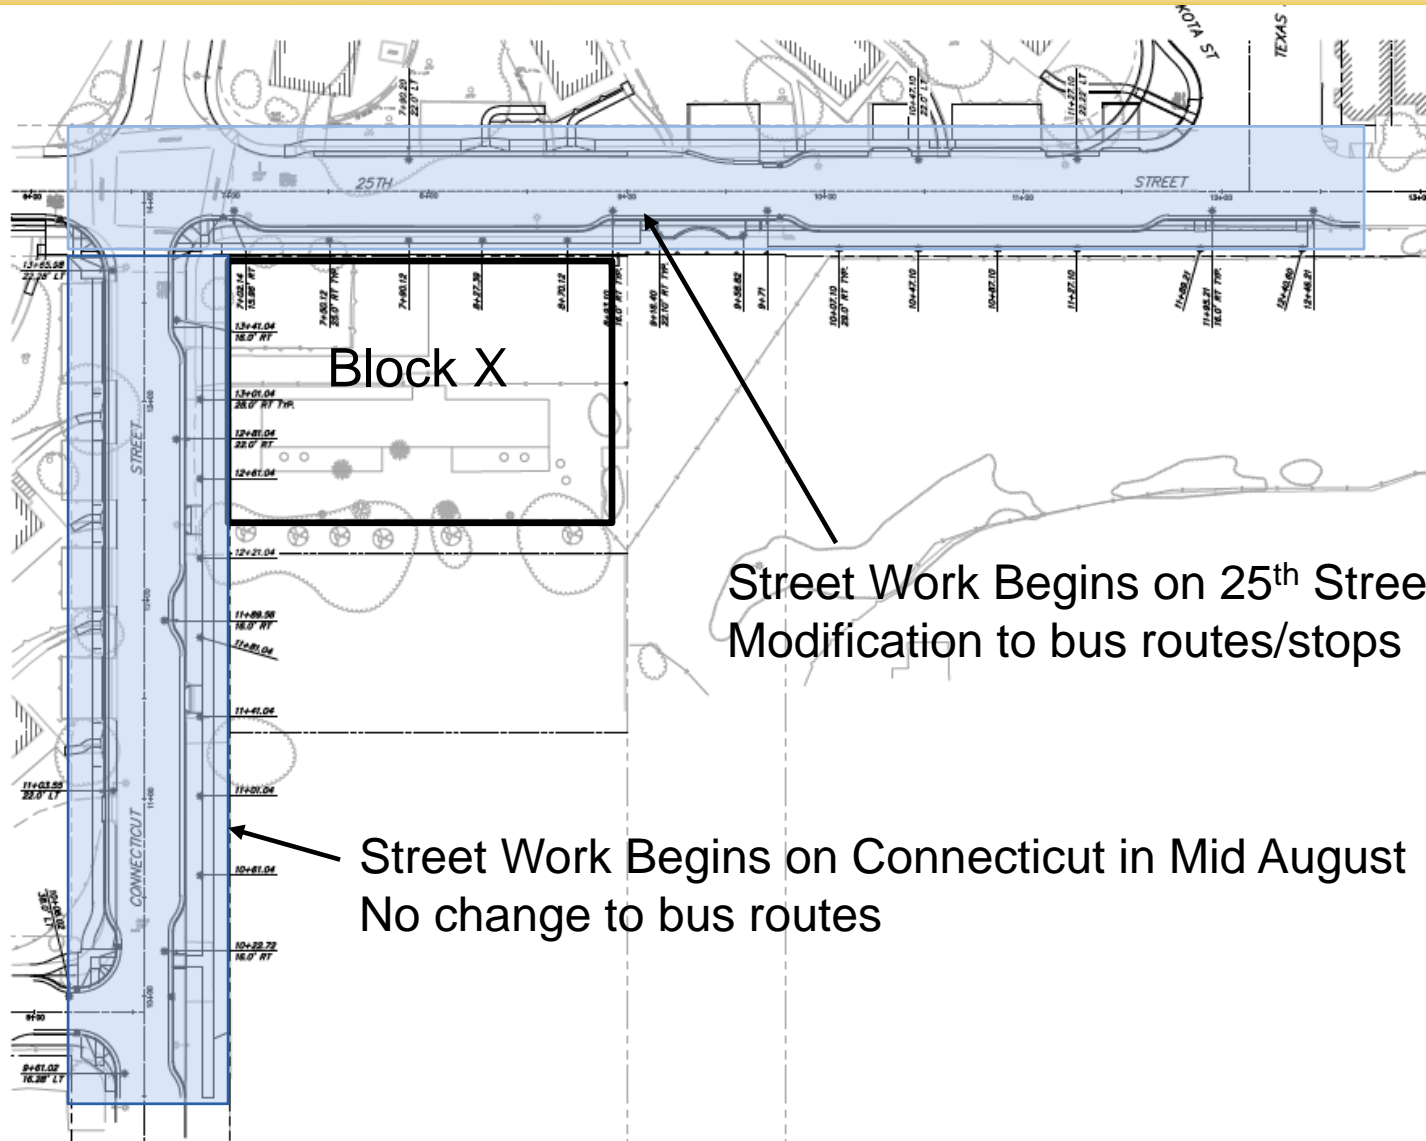

Once Plan is approved, we will report out details regarding street closures and bus re-routing

Notices will be distributed to residents describing changes

Notices will be left on vehicles that need to be moved
